

INSURANCE SOLUTIONS BUILT FOR THE INFRASTRUCTURE OF TODAY AND TOMORROW

Protection for the long-term.

Civil engineering structures, such as bridges, highways, railways, roads, and tunnels are crucial to the day-to-day functioning of cities around the world. They connect communities, allowing residents to move freely from point A to B. Any damage sustained to these structures can have serious consequences, both to a city's financial health and the overall impact to its resident's daily lives. Given their importance and scale, insuring these structures as effectively as possible is of paramount importance.

As an experienced industrial insurer with a tradition spanning more than a century, we recognize that engineering exposures are technically complex and present commercially challenging risks. We pride ourselves on being a trusted and reliable partner, offering tailored insurance solutions that meet the evolving needs of our clients. Our customized risk-transfer solutions provide full physical damage cover including catastrophe perils, derailment, extra expense, business interruption, and contingent business interruption.

Why HDI?

- Backed by the Talanx Group, we have a strong credit rating of A (Excellent) A.M. Best & A+ (Strong) S&P
- With €200m PML capacity, we rank among the largest engineering lead capacity providers

- Freight railways (Class I, II & III)
- Passenger railways
- Rolling stock
- Switching and terminal railways
- Urban mass transportation systems

Publicly Owned Infrastructure for Municipalities, Counties, Parishes, Cities, Townships and Villages

- Bridges
- Dams
- Renewable Energy (Hydro, Solar & Wind)
- Tunnels

Public private partnerships (P3)

- Beltways
- Corridors
- Interstates
- Toll bridges
- Turnpikes

Territories Written:

Worldwide

Products Offered:

- Builders Risk Project Specific
- Construction All Risk (CAR) Project Specific
- Erection All Risk (EAR) Project Specific
- Operational Civil Works (CECR)
- Civil Engineered Completed Risks (CECR)
- Rolling Stock (CECR)
- Mechanical Breakdown (MB)

Claims:

Our philosophy is to always be approachable and available. Our highly experienced claims team works closely with our underwriters to provide fast and efficient claims handling. With our collaborative and consultative approach, we operate with sensitivity to your business circumstances. Clearly stated pre-loss protocols and claims procedures are agreed upon up-front. In managing claims to a fair settlement, we seek to minimize the impact of a loss to your business and preserve your reputation.

Risk Engineering:

With access to the latest technology and utilization of industry best practices, we provide a pragmatic approach to risk control. Globally, we employ a team of 180+ engineers, whose experience spans the following industries:

- Construction
- Heavy civil engineering
- Railways
